

## Not just clean... Hygienically clean!

The majority of pests carry bacteria and viruses which pose serious health risks to people and pets.

Rodents, birds and insect pest are notorious for carrying a range of disease-causing pathogens such as Salmonella, Hantavirus, Leptospirosis and E. Coli.

These pathogens can easily be spread throughout premises through poor hand hygiene, contact with urine or faeces or consumption of contaminated food or water.

Formidable assistance is available in the form of STERI-7 XTRA high-level surface disinfectant cleaner.

When applied to any surface from a floor to a wall or even a fabric, the biocide in STERI-7 XTRA kills Bacteria, Spores, Fungi, Viruses and Mould in seconds. But unlike any other disinfectant, STERI-7 XTRA incorporates a unique innovation called Reactive Barrier Technology.

Reactive Barrier Technology is a specialised micro emulsion which provides an optional sustained release system – this means that the Reactive Barrier can be switched on or off depending on the situation. It's simple, if you rinse STERI-7 XTRA after application you remove the Reactive Barrier, if you leave STERI-7 XTRA to dry you enable the Reactive Barrier Technology providing added biosecurity and protection between cleans.

### KILLS:

#### Bacteria

Ps.aeruginosa  
MRSA  
Vancomycin-Resistant  
Enterococcus (VRE)  
Ent.hirae  
Staph.aureus  
E.coli  
Salmonella typhimurium  
Salmonella enteritidis  
Salmonella cholerae suis  
Proteus Vulgaris  
Legionella  
Listeria Mono  
Mycobacterium  
Mycobacterium terrae (TB)  
Mycobacterium Fortuitum

#### Spores

Bacillus subtilis  
Bacillus cereus  
Clostridium difficile  
Clostridium perfringens

#### Yeasts

Candida albicans

#### Fungi

Aspergillus niger

#### Viruses

SARS  
Hep C  
Influenza A H1N1 (Swine Flu)  
HIV  
Norovirus

HIGH LEVEL SURFACE DISINFECTANT CLEANER

RAPID KILL RATE up to 99.9999% IN SECONDS

NON-CORROSIVE

NON-RESIDUAL ORGANOLEPTIC  
EFFECT ON FOOD

LOW TOXICITY

EFFECTIVE IN SOFT OR HARD WATER

NO REPORTED RESISTANCE

TRIPLE ACTIVE REDUCING NEED  
TO ROTATE PRODUCTS

MAINTAINS EFFICACY IN HEAVY ORGANIC  
SOILING, BLOOD AND PROTEINS

REACTIVE BARRIER TECHNOLOGY PROVIDES  
PROTECTION BETWEEN CLEANS

HACCP COMPLIANT

The biocidal cleaner that out-performs all others.
